Contractor
Equipment List
and Order Form

Metro NY **2010**

As a contractor working in National Grid's service territory, your business is critical to our business. Today you can help your customers cut their operating costs and create a cleaner environment by showing them how easy it is to convert to natural gas.

Natural Gas is the smart energy choice for many reasons:

- Burns cleaner
- More reliable
- Requires less electricity
- No messy storage tank
- Reduced liability from oil spills

Help us. Help you.
Help your customers.

It's easy to help your customers improve their business with National Grid's incentive offers for converting to natural gas:

Discount Heating Equipment:

Save your customers up to 75% or more on high-efficient furnaces, boilers and unit heaters.

Financing: Ask your sales representative how to participate in our financing program.

Form must be completed entirely to be processed and returned to your sales representative with payment.

TERMS AND CONDITIONS

* Customer contributions should be made payable to National Grid and must be received within 30 days of order approval. Customer is responsible for the return delivery fee to National Grid if equipment is not installed. Programs are subject to change and restrictions apply.

** Contractor acknowledges that equipment is provided by National Grid to the customer listed on this form. Contractor accepts responsibility for the coordination of delivery of equipment with National Grid designated distributor. Contractor accepts full responsibility for selected equipment specification and agrees to pay a re-stocking fee for reorder due to incorrectly specified equipment. Uncrated equipment can be returned only at the distributor's discretion; re-crating fee may apply. Contractor is responsible for equipment until it is installed and equipment must be installed within fourteen (14) days of delivery or will be invoiced to the contractor. Contractor agrees to support manufacturer's warranty for one year from the installation date. This equipment program is at the discretion of the sales representative and must be approved by a National Grid sales representative to be processed. All incentives are subject to gas availability.
