

Follow these steps to participate

To receive your National Grid Visa® prepaid card as quickly as possible, submit your rebate online. Go to www.smartenergy-zone.com/nationalgridri to complete the online form.

Or, to apply for your rebate by mail, follow these simple steps:

1. Purchase an ENERGY STAR® qualified compact fluorescent light (CFL) interior light fixture with a purchase price of \$20 and/or an ENERGY STAR qualified CFL exterior light fixture with a purchase price of \$15 or more and/or an ENERGY STAR qualified CFL light fixture with a purchase price of \$75 or more. Purchases must be made between January 1, 2013 and December 31, 2013. Install it in a Rhode Island residential property with an active residential meter using National Grid electric service.
2. Compile the following supporting documentation:
 - A copy of the first page of your most recent electric bill
 - A copy of your receipt reflecting the qualifying manufacturer, model, purchase date, purchase price and store name
3. Complete this rebate form accurately and legibly. Mail your completed application and supporting documentation by January 31, 2014.
4. Mail to: ENERGY STAR Light Fixture Rebate (RI)
Offer# H245478
PO Box 130013
El Paso, TX 88513-0013

Your rebate will be issued as a Visa prepaid card. From the time the application is processed and approved, please allow 6–8 weeks for payment. Payment processing will take longer if information or documentation is missing from the application.

To check on the status of your rebate after submission, please visit www.smartenergy-zone.com/nationalgridri.

Program Details

Apply for a mail-in rebate from National Grid when you buy an eligible light fixture between January 1, 2013 and December 31, 2013.

- Get \$15 back on your purchase of an eligible ENERGY STAR qualified compact fluorescent light (CFL) interior fixture with an original purchase price of \$20 or more. Eligible fixtures include lamps, torchieres (a tall, thin floor lamp topped with an inverted shade that directs light toward the ceiling), chandeliers, and ceiling fans with light kits.
- Get \$10 back on your purchase of an eligible ENERGY STAR qualified CFL exterior fixture with an original purchase price of \$15 or more.
- Get \$25 back on your purchase of an eligible ENERGY STAR qualified CFL interior or exterior fixture with an original purchase price of \$75 or more.

Please note, the following types of ENERGY STAR qualified light fixtures are NOT eligible for this rebate: high-pressure sodium, fluorescent tubes, halogen or incandescent fixtures with motion sensors, portable work lights, under-cabinet lights, and ceiling fans without pin-based light kits.

ENERGY STAR qualified models consume less energy than standard models, reducing your related electricity usage and costs. By replacing the five most frequently used light fixtures in your home with ENERGY STAR qualified models, you can save up to \$70 each year in energy costs.

Congratulations on your decision to buy an ENERGY STAR qualified compact fluorescent light (CFL) fixture. It's good for you, your family, and the environment. Thank you!

Wattage Equivalencies

CFL/Incandescent Equivalency Chart

| Traditional Incandescent Bulb | CFL Equivalent | Brightness (measured in lumens) |
|-------------------------------|----------------|---------------------------------|
| 40 watts | 11 watts | Minimum of 450 lumens |
| 60 watts | 15 watts | Minimum of 800 lumens |
| 75 watts | 20 watts | Minimum of 1,100 lumens |
| 100 watts | 28 watts | Minimum of 1,600 lumens |
| 150 watts | 38 watts | Minimum of 2,600 lumens |

The “Lighting Facts” label on a light bulb’s packaging details brightness (in lumens), energy use (in watts), and color temperature (in Kelvins). When you shop for a bulb, look for its lumens to understand how bright it will be. The more lumens a bulb has, the brighter it will be. For example, if you are looking to replace a 60 watt bulb, look for an ENERGY STAR® Qualified CFL that provides 800 lumens or more, such as a 13 - 15 watt CFL.

The amount of lumens you need depends on the space you are lighting. For reading lamps, pick a bulb that delivers at least 800 lumens of light. For open spaces that require a lot of light, pick a bulb that has about 1600 lumens.

Rhode Island

**ENERGY STAR®
Qualified Light Fixtures**

Terms & Conditions

This rebate offer is available to Rhode Island residential electric customers of National Grid and may be subject to change without prior notice. Valid for purchases made from January 1, 2013 to December 31, 2013. Rebate requests must be postmarked by January 31, 2014. Savings and energy efficiency experiences may vary. National Grid reserves the right to withdraw this offer without notice. Limit six interior and six exterior light fixture rebates per Rhode Island residential electric account per calendar year. Eligible light fixture must be installed in Rhode Island. This rebate is not valid and cannot be processed unless fixture information and customer information is completed. Eligible ENERGY STAR® Qualified Light Fixtures include lamps, torchieres, chandeliers, or ceiling fans with light kits. This offer is available for a limited time, and is good while supplies last. This rebate is valid for ENERGY STAR Qualified Compact Fluorescent Light Fixtures only. The following types of ENERGY STAR Qualified Fixtures are not eligible for rebate: high-pressure sodium, fluorescent tubes, halogen or incandescent fixtures with motion sensors, portable work lights, under-cabinet lights, and ceiling fans without pin-based light kits. \$15 rebate valid on qualifying interior light fixture with an original purchase price of \$20 or more. \$10 rebate valid on qualifying exterior light fixture with an original purchase price of \$15 or more. \$25 rebate valid on qualifying interior or exterior light fixture with an original purchase price of \$75 or more. Not valid with ENERGY STAR Lights catalog orders. National Grid does not guarantee the product's performance, nor does it provide any other warranties, either expressed or implied. If a product you have purchased is defective, contact the retailer or manufacturer. National Grid reserves the right to conduct field inspections to verify installations. This rebate may not be combined with any other utility or energy efficiency service provider offer. This offer is void where prohibited, taxed, or otherwise restricted. Customers are responsible for any and all applicable sales tax. National Grid will not be responsible for any tax liability that may be imposed on the customer or contractor as a result of the payment of rebates. Customer agrees that the Energy Efficiency Program Provider (EPPP) has the unilateral right to apply for any ISO-NE capacity payments or environmental credits resulting from this energy efficiency project, and agrees not to file for such payments or credits either directly or indirectly. Manufacturer and/or retailer agree to provide the EPPP with such further documentation as the EPPP may request to confirm the EPPP's ownership of such benefits. These programs are funded by the energy efficiency charge on all customers' gas and electric bills, in accordance with Rhode Island law.

Rebate paid in the form of a National Grid Visa Prepaid Card. National Grid Visa Prepaid Cards are issued by Citibank, N.A. pursuant to a license from Visa U.S.A. Inc. and managed by Citi Prepaid Services. Cards will not have cash access, can be used everywhere Visa debits cards are accepted and expire six (6) months from the card issuance date. Please allow 6-8 weeks for application processing.

For more information on your rebate status, call 1-877-711-3013 or visit www.smartenergy-zone.com/nationalgridri.
