National Grid High-Efficiency Heating, Water Heating and Controls Program

Save money, improve comfort and ensure a cleaner environment with energy savings offers for residential natural gas heating and hot water customers from National Grid.

- ▶ High-Efficiency Heating Equipment
- ▶ High-Efficiency Water Heaters
- ▶ Programmable Thermostats
- ▶ Weather-Sensitive Outdoor Boiler Reset Controls

Thank you for your interest in our energy saving rebate programs.

Follow these steps to receive a rebate for the equipment listed below:

- 1) Consult a licensed contractor to determine what equipment will be installed and that the new equipment will qualify for the listed rebates.
- 2) National Grid requires rebate funding be reserved prior to equipment installation. To confirm funds are available and to make your reservation, please visit www.smartenergy-zone.com/nationalgrid. Rebate funding is reserved for 60 days from the date of the reservation.
- 3) Receive confirmation on your reservation via a web submission ID.
- 4) Once your new high-efficiency equipment is installed, review, complete and return a rebate application within 60 days of rebate reservation with a dated contractor invoice. A rebate form will be available after you reserve your funding at www.smartenergy-zone.com/nationalgrid.

Please make sure your invoice includes:

- a) The type of equipment installed with the complete equipment manufacturer and model number(s)
- b) AFUE for heating equipment, Energy Factor or Thermal Efficiency for water heating equipment
- c) Contractor's name and address
- d) Contractor's license number

Mail application and documentation to:

National Grid High-Efficiency Heating Equipment Rebate (MA) • Offer # H943801 • PO Box 130013 • El Paso, TX 88513-0013

Please call **1-800-292-2032**, e-mail ngridinfo@smartenergy-zone.com or visit www.powerofaction.com/efficiency if you have any questions.
